

Mr.
Victor Moscatel
President International Pitch & Putt Federation

August 18, 2016

Dear Mr. Moscatel:

Through the present letter, I would like to convey our warmest greetings to all Pitch and Putt Federations associates to FIPPA:

The Chilean Pitch and Putt Federation, is most proud to organize the 1st Chilean Open, which can undoubtedly be referred to as the Southernmost tournament in the world. This OPEN will be held between November 18-20, 2016, at the Chilean Medical Association Country Club course in Santiago, Chile.

During 2016, our Federation organized the 15th Chilean National Team Championship, which has been held uninterruptedly since 2001. Additionally, we have organized two International Tournaments, and we have participated in four World Cups. We strongly feel this reflects our great enthusiasm and commitment to P&P. For our Federation, it is therefore a great honor to host and organize this OPEN Tournament, and we will receive our guests with the warmth and hospitality for which the Chilean people are renowned.

We are a small Federation, but very well organized, and we fully fund our activities with the support of our players. We have made an effort to finance lodging for the nights of November 18 and 19, for up to 12 international players. We would like to point out that lodging for additional nights will have to be covered by each player, at a rate of 45 € each, considering apartments for up to three people. We feel it is most important that players of all levels of play have an opportunity to compete on equal terms. We will therefore implement a handicap system by categories. In this regard, the Federation has decided to implement three categories for the Open. The bracket the will define each category will be implemented according to the handicap certificates provided by the Federation of each player.

Chile is a country with many tourist attractions recognized worldwide. If some of the international players are considering to extend their stay for some sightseeing, tour packages are available for their consideration. All the pertinent information is available in our Webpage: www.chilegolfpyp.cl. Further, all information pertaining the Chilean Open is available in Spanish and English in the webpage. Additionally, we have prepared a series of aerial videos of the course taken last July. The course and green are now being reseeded and treated to have them in optimal condition for the tournament.

Our Federation is available upon any questions or doubts regarding the 1st Chilean Open.

Very best regards

Patricio Rubel, President Chilean Pitch & Putt Federation
